Develop students' capabilities to learn logically, creatively and critically; to use knowledge to analyze and solve problems; and to make sound judgements.

常識科

General Studies

實地考察及戶外學習：

- 將日常生活連繫課文知識

環保教育：

- 活動包括相關的講座和廢物回收等，以培養保護環境的意識

STEM活動：

- 培養創造力和探究精神

專題研習：

- 訓練分析能力和解難技巧

Field trips and outdoor learning activities:

- To integrate textbook knowledge into everyday life

Environmental Education:

- Activities to cultivate awareness of environmental protection

STEM activities

- Cultivate creativity and the spirit of inquiry

Learning projects

- Train analytical and problem-solving skills

圖書課課程特色及活動

Library Studies Curriculum and Activities

本校於2017至2018年度起使用「校本圖書課程」，使圖書課更靈活和實用。課程注重培養學生自主閱讀的習慣，並通過學習閱讀策略，促進閱讀的成效。

除了上述課程外，本科還定期進行跨學科活動，如「世界閱讀日」、「我的閱讀歷程檔案」、「故事爸媽說故事」等，以培養學生閱讀的習慣和興趣。

本校學生還積極參與區內公共圖書館舉辦的活動，如「讀書會」。學生能通過活動學習當代作家的閱讀及寫作技巧，擴闊視野。

本校定期舉辦家長工作坊，如「故事爸媽工作坊」，邀請家長分享親子閱讀的樂趣和技巧，以推動親子共讀風氣。

Since 2017/18, our school has adopted a school-based reading curriculum, so that Library Studies can be more flexible and practical. We train students to be proactive readers and we teach reading strategies to enhance students' reading proficiency.

We also cultivate students' good reading habits and stimulate their interests in reading through organizing cross-curricular activities regularly, such as World Book and Copyright Day, My Reading Portfolio and storytelling.

Our students also participate in activities organized by the public libraries such as the Reading Club, with sharing sessions on reading and writing techniques from contemporary writers to broaden students' horizons.

We organize parents' storytelling workshops regularly to encourage parent-child reading. Through the workshops, parents can share their techniques and the joy of reading with their children.
